THK
The Mark of Linear Motion

THE MARK OF INDEPENDENCE

AN AGE OF FREEDOM

"We've never been more adventurous. With the surgical recovery tools available to us, we can keep hiking the trails..."

"I was afraid my life would change drastically once I became disabled, but my lifestyle has never been better!"

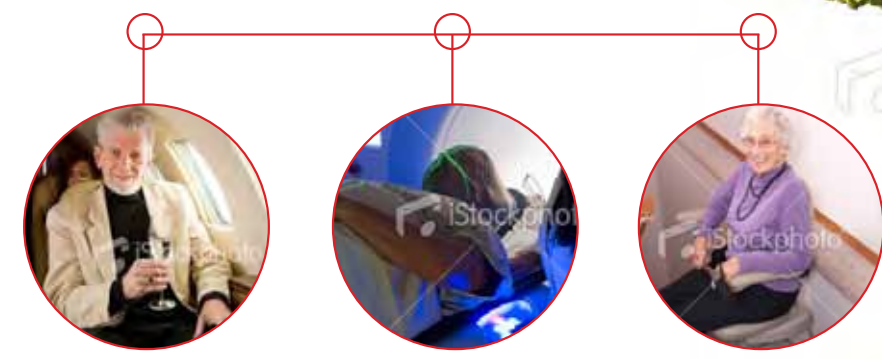

OUR APPLICATIONS CONTINUE

"With today's technologies it has never been easier to age. I look great and feel greater!"

ENDLESS APPLICATIONS

- Aerospace (First Class)
- Dental Technology
- Medical Scanning
- Robot Nurse & Advanced Electric Wheelchair
- Surgical Recovery

THE MARK OF DREAMS

A TIME OF ACHIEVEMENT

"Seeing today's technology in action reminds me of how far I've come. I am part of today's momentum!"

THK PROVIDES VITAL TECHNOLOGY FOR MECHANISMS currently in use all over the world. We support achievement in simulated technologies and energy. From amusement to testing, THK has provided technology for advanced driving and flight simulation. Additionally, growth in the wind turbine sector has required a unique and proficient design that THK has mastered and provides globally.

With a wide range of engineering capabilities THK allows companies to provide the best today possible. Flexible, customized designs are at your fingertips.

Partner with THK today for an option that fits you!

THK's history and experience with Linear Motion makes their technology invaluable to the field of green energy.

WITH GREEN ENERGY NEEDS RISING there is a demand for both functional and efficient technology. THK's large research and development division used their foundation of Linear Motion to devise a mechanism that can be used in turbine technology. Dependent on the specific turbine custom adjustments can be made to the mechanism. THK's history and experience with Linear Motion makes their technology invaluable to the field of green energy. **Put our experience to work for you, contact THK today.**

THE MARK OF WHAT'S YET TO COME

A LIMITLESS FUTURE

An invitation
to innovate.

Making your dreams come true.

Energizing to go beyond today.

THE FUTURE IS NOW From solar panels to solar systems THK is on the forefront of the future. Preparing for the future today THK continues to expand our research and development division with the same pioneer spirit that made us prominent in today's industry. In conjunction with research development, business development and partnerships are a key ingredient to moving closer to the future.

THK has a streamlined process to work with businesses and partners of all kinds to meet tomorrow's ideas today.
Step aboard and view the new horizon.

INFINITE POSSIBILITIES

YOUR DREAMS START HERE. As THK looks beyond today and into tomorrow we look beyond our world and into the next. With both public and privatized space research on the rise we envision Linear Motion being key to providing innovative space technology. With the ability to help comprise the most advanced robotic arms, THK foresees innovation in robotic technology as being a crucial for every space program.

As we have already proven, **THK can take you where no man has gone before. We are ready to take the next step, are you?**

THE MARK OF

MOVING BEYOND LINEAR DIRECTIONS

WHERE YOU WANT TO GO
